TERMS OF ADMISSION.

Candidates for admission into the Freshman Class are required to write Latin grammatically, and to be well versed in Geography, Arithmetic, six sections in Smyth's Algebra, Cicero's Select Orations, (Folsom's edit. preferred,) the Bucolics, Georgics, and Æneid of Virgil, (the *whole*,) Sallust, (Andrews' edit.,) the Gospels of the Greek Testament, and Jacob's (or Felton's) Greek Reader; together with Latin and Greek Prosody. They must produce certificates of their good moral character. The time for examination is the Friday after Commencement, and the first Thursday in the Fall term. Candidates for admission into the other classes will be examined also in the books which have been studied by the class, into which admission is requested. Students from other Colleges, before they can be examined, must produce a certificate of their regular dismission. The Geography to be studied may be Morse's, Worcester's, or Woodbridge's. There will be a special examination in Ancient Geography.

N. B. Particular attention to *the writing of Latin* is urged as essential to a suitable preparation for the College Course. The examination *in the Grammar of the Greek and Latin Languages, including the Prosody of both,* and *in writing Latin* will be particular.

Andrews and Stoddard's Latin Grammar and the Greek Grammar of Sophocles are preferred.

COURSE OF STUDY.

FRESHMAN CLASS.

1. TERM.———Memorabilia of Xenophon.
Greek Grammar.
Folsom's Livy—(two books.)
Lacroix's Arithmetic, Smyth's Algebra.
Weekly Exercises in Latin Composition.

2. TERM.———Memorabilia.
Greek Grammar.
Livy.—Smyth's Algebra.
Eschenburg's Manual; tr. by Fiske.
Exercises in Elocution.
Weekly Exercises in Latin Composition.
Arnold's Greek Prose Composition.

3. Term.———Odyssey, (Owen's Edition, commenced.)
Greek Grammar.
Excerpta Latina, (Paterculus and Quintus Curtius.)
Eschenburg's Manual.
Smyth's Algebra.—Hedge's Logic.
Exercises in Elocution.
Weekly Exercises in Latin Composition.
Arnold's Greek Prose.
Review of the studies of the year.

SOPHOMORE CLASS.

1. Term.———Odyssey, continued.
Horace, (Odes.)
Legendre's Geometry.
French Language, (Guizot's History of European Civilization.)
Newman's Rhetoric.

2. Term.———Electra of Sophocles commenced.
Horace, (Satires and Epistles)—Terence, (Andria.)
Smyth's Trigonometry.
Cam. Math., (Heights and Distances, Surveying, and Navigation.)
French Language, (Guizot continued, and Molière.)

3. Term.——— Electra, finished.
Terence—(Adelphi.)
Cam. Math., (Projections, Leveling.)
Smyth's Application of Algebra to Geometry.
French Language, (Molière.)
Review of the studies of the year.

JUNIOR CLASS.

1. Term.———Satires of Juvenal.
German, (Follen's German Reader,)—or Greek, (Demosthenes de Corona.)
Mechanics.

2. Term.———Calculus.
Electricity—Magnetism—Optics.
German, (Schiller's William Tell, or Fouqué's Undine.)
Greek, (Demosthenes finished. The Antigone.)
Tacitus, (Germania and Agricola.)
Spanish Language.

3. TERM.———Greek, (Gorgias.)
Calculus.—Mechanics.
German, (Goethe's Faust.)
Moral Philosophy.
Vattel's Law of Nations.—Spanish Language.
Review of the studies of the year.

SENIOR CLASS.

1. TERM.———Astronomy and Mathematics.
Paley's Evidences.—Guizot's Hist. of Civilization.
Upham's Mental Philosophy.

2. TERM.———Chemistry.
Butler's Analogy.—Guizot's Hist. of Civilization.
Mental Philosophy continued.
Hebrew and Italian Languages.

3. TERM.———Natural History.—Cleaveland's Mineralogy.
Wayland's Moral Science.
Upham's Treatise on the Will.
Hebrew and Italian, continued.
Review of the studies of the year.

EXERCISES DURING THE YEAR.

Weekly Exercises in Declamation of all the Classes.
Compositions in English of the three upper Classes.
Forensic Disputations of the Juniors and Seniors.
Weekly Translations into Latin by the Freshman Class.
Translations into English by the Sophomore Class.
Two weeks, preceding the term Examinations, are spent in review of the studies of the term.

LECTURES.

SPRING TERM. On Chemistry to the Junior and Senior Classes.
SUMMER TERM. On Natural Philosophy to the Junior and Senior Classes.
On Mineralogy to the Senior Class.
On Classical and General Literature.
On the Steam Engine.

EXAMINATIONS.

1. Of all the Classes at the close of the first and second terms.
2. Of the Senior Class on the sixth Tuesday preceding Commencement.
3. Of the three other classes during the week preceding Commencement.

EXHIBITIONS.

1. Of the Senior and Junior Classes in May and October.
2. Of the Sophomore and Junior Classes, a prize declamation, in August.

VACATIONS.

1. From Commencement, which is on the first Wednesday in September, three weeks.
2. From the Friday after the third Wednesday of December, eight weeks.
3. From the Friday after the third Wednesday of May, two weeks.

LIBRARIES.

The number of volumes in the College Library is over	11,000
Medical Library about	3,200
Peucinian	4,800
Athenæan	3,800
Theological	750
Peace Society, (Donation of the late Wm. Ladd)	500
Total	24,050

ANNUAL EXPENSES.

Tuition, $24,00. Room rent, $10,00. Incidental charges on the College bills, $12,00. Board, $1,00 to $2,00 per week. Other expenses, as wood—lights—washing—use of books and furniture, $35,00. Total, $121,00.

MEDICAL SCHOOL

OF MAINE.

The Medical School of Maine, by an Act of the Legislature, is placed under the superintendence and direction of the Boards of Trustees and Overseers of Bowdoin College. By the joint authority of these two Boards all the degrees of M. D. are conferred.

The Medical Session commences near the middle of Feb., annually, and continues thirteen weeks. Students, and particularly candidates for a degree, are examined either daily or weekly on the subjects of the Lectures.

The Fees for admission to the several courses of Lectures, payable in advance, are $50.

The Graduation fee, including an engraved Diploma on Parchment, is $18 Matriculation or Library fee, payable but once, $3.

Pupils, who have attended two full courses of Medical Lectures, one to which courses must have been at this School, are admitted to all subsequent courses, without payment of any Lecture fees.

Students, who have attended two full courses at other regular Medical Institutions, are required to pay one third of the usual fees for admission to their first course of Lectures at this School.

GRADUATION.

Candidates for the Degree of Doctor of Medicine are examined by the Faculty of Medicine immediately after the termination of the Course of Lectures, and also on the second Monday before the annual Commencement of the College, which occurs on the first Wednesday of September.

They must have devoted three years to their professional studies under the direction of a regular Practitioner of Medicine. They must have attended two full courses of Medical Lectures in some incorporated Medical Institution. and the last course previous to examination must have been at this Medical School. They must deposite with the Faculty satisfactory certificates of having pursued their Medical Studies for the required term, and of possessing at the time of examination a good moral character.—They must also pass a satisfactory Examination in Anatomy, Physiology, Surgery, Chemistry, Materia Medica, Pharmacy, Obstetrics, and the Theory and Practice of Physic. They must read and defend a Thesis or Dissertation on some Medical subject, in the presence of the Faculty of Medicine.

Those Candidates, who have not received a Collegial education, must satisfy the Faculty of their proficiency in the Latin Language and in Natural Philosophy.

Degrees are conferred at the close of each course of Lectures, and at the annual Commencement of the College in September.

A fair copy of the Thesis or Dissertation must be deposited with the Secretary of the Faculty at least ten days before the commencement of the Examination at the close of the Lectures. These copies are preserved in the Medical Library; and it is required, that they should be written on Letter paper of medium size, with a wide margin, left for the purpose of binding them into volumes.

LIBRARY.

The Medical Library, attached to this School, is one of the best in the United States. It contains about 3200 vols. principally modern works, which have been selected with much care; and is annually increasing. It embraces an extensive and valuable collection of Plates, among which are the works of Albinus, Baillie, Bateman, the Bells, Breschet, Bright, Carswell, Cloquet, Cooper, Cruveilhier, Home, Hooper, Lizars, Maygrier, Scarpa, Seerig, Swan, Tiedemann, Vicq d'Azyr, Weber, &c. &c.

All the Members of the Medical Class are entitled to borrow two volumes a week from the Library. Those, who are candidates for examination for the degree of M.D. during the year, are permitted to exchange their books twice a week, thus giving them the privilege of consulting four volumes each week.

ANATOMICAL CABINET.

The Anatomical Cabinet was purchased in Paris; and most of the Preparations were there made under the direction of the late Professor Thillaye.

Many wet preparations have however been added during the past year. Its valuable specimens of Morbid and Comparative Anatomy are also constantly increasing; so that every department of practical Anatomy can now be fully demonstrated from this collection.

The students, divided into classes containing 3 or 4 individuals, are furnished with the separated bones of the Skeleton for examination at their private rooms.

The Chemical Department embraces every Article of Apparatus essential to a complete illustration of the principles of Chemistry. This Course also includes a very full exhibition of the principles of Common and Galvanic Electricity, and Electro-Magnetism, with numerous experiments.

Lectures will also be given to the Medical Class on those departments of Natural Philosophy, which are especially connected with Medical Science.

An extensive and valuable collection of Instruments and Apparatus has been provided for the department of Surgery; which will be completed by the Lecturer in this Department. Frequent opportunities for witnessing Surgical operations will be afforded.

All operations in the presence of the Medical Class will be performed *without charge*. It is considered important, that this fact should be extensively made known to the Public.

The foregoing is a brief statement of the means of acquiring Medical Knowledge, which may be enjoyed at this Institution. No efforts, which may tend to render these means beneficial, and to promote the instruction of pupils in the Science of Medicine, will be omitted by the Professors.
